

LEE NICHOLAS'S UTAH COLORADO WESTERN (HO)

The UCW, set in 1967, runs between Salt Lake and Denver both of which are located in staging. The layout features many large scratchbuilt and kitbashed buildings. The scenery is excellent and has a custom painted backdrop done by Rob Spangler.

The CB&Q is well represented running from Casper, WY to Denver, CO, both located in staging. It runs parallel with the UCW and train movements are controlled by ABS. Live interchange between the UCW and CB&Q occurs at Clayton Yard.

The UCW has been featured in MR, MRP, and GMR Keller video #27. Web site www.ucwrr.com (outdated).

MILES CHESTER'S SANTA FE UNION RR. (HO)

The "Santa Fe Union railroad" started 47 years ago In May. Its about 1940 thru 1965, Steam and some diesel.

It has a 3 stall engine house on the east end of the service area and a 2 stall steam engine building. The town of Greenville has its own theater, grocery, dinner, and many town buildings. it has a double track station for trains going north or south. The town of Hillside is on the way before getting to the Schuller Coal Company, coal mine.

While in town don't spend too much time at the Pioneer Saloon or you might meet the 'Fat Guy' in the out house, you will hear him!

Try to enjoy the fireside music with the hobos playing their tunes. Stop and listen to the Church music before leaving town.
